Our Ref: 4041.doc 18 January, 1999

Senator Ron Boswell
National Party Leader in the Senate
Waterfront Place
Brisbane QLD
By facsimile: (07) 3291 1848. By Express Courrier 19/1/99

Dear Senator Boswell,

Re: Unauthorised Interception, Diversion and Re-transmission of C.o.T.s' facsimiles or facsimiles intended to be received by C.o.T. members by an unknown third party.

Mr Paul Cosgrave, Graham Schorer's barrister, who also acts for Mr Plowman and Ann Garms, stated to Schorer that the material presented to him by Schorer, the evidence speaks for itself, i.e. the facsimiles in question had been intercepted and re-transmitted.

On Monday, 28 December 1998, Ross Plowman rang Graham Schorer at his home and informed him of the identification and confirmation made by the Telstra technician in attendance at Plowman's premises on 24 December 1998, that Plowman's intended facsimile transmissions to Garms' dedicated facsimile line was being diverted.

On Tuesday, 29 December 1998, in response to the information received from Plowman, Schorer commenced an investigation into the facsimiles he had received from his legal advisers, the Commonwealth Ombudsman, Ann Garms, associated C.o.T. members and others.

During the period between 29 December 1998 to 4 January 1999, a number of test facsimiles were conducted, arrangements made for independent telecommunications expert to become involved in the testing and investigation.

Arrangements had been made for tests to be conducted week beginning Monday, 4 January 1999, that would enable the identification from live tests, 'the actual telephone number being used by alleged facsimile re-transmissions'. These arrangements included having Telecommunications and Facsimile Engineers inspect my fax machine and be present to witness the receipt of test facsimiles from those parties believed to have past facsimiles transmissions intercepted.

Also on Monday, 4 January 1999, Graham Schorer had the need to contact Roger Levy of Telstra by telephone on another matter. During this conversation, Mr Levy made inquiries of Schorer about the Ross Plowman incident and his complaint lodged with Telstra's Mr Frank Blount's office. Mr Levy stated to Schorer he had returned from holidays that day and had initiated a full inquiry. Schorer did not alert Levy to his own investigation into the matter or the fact that facsimiles Schorer received from his own legal advisers, the Commonwealth Ombudsman and other C.o.T. members indicated the facsimiles had been intercepted and re-transmitted by an unknown party.

With reason, Telstra still has not been advised of this fact at this point in time.

Schorer and the company's Telecommunications engineers inspected the facsimile footprints of faxes received on the main fax machine that receives C.o.T. and legal matters, Senate Working Party matters and general facsimiles to do with day to day business. The following was discovered:

With selective facsimiles:-

 During the latter part of 1998 and up until approximately 3:30 PM, Monday 4 January 1999, transmitting fax machine transmission footprints of faxes sent to Schorer from his legal advisers, the Commonwealth Ombudsman's Office and others involved in the Telstra dispute have been deleted, changed or over written by a different transmission footprint.

G5 460

- Ann Garms' fax machine transmission footprint on facsimiles received on GOLDEN's main fax machine had been partly obliterated with a new and different footprint printed above the original transmission footprint.
- 3. Advice received from two (2) independent technical engineers' evaluations of Schorer's (03) 9287 7001 fax machine and results of tests made, it is not possible for the original fax footprint from the transmitting fax machine to be obliterated, changed or replaced unless the original facsimile was being intercepted and re-transmitted.

During this period, Mr Schorer's technical expert witnessed that other facsimiles being received. The sender's original transmission footprint was still intact. These facsimiles were from parties unrelated to the Telstra dispute.

- 4. One test done was to send a facsimile transmission from Ann Garms to GOLDEN's Accounts Department's facsimile machine, with a different exchange prefix of 9286 0066, rather than 9287 7001. This completed test to 9286 0066 shows the sender's original unaltered transmission footprint.
- 5. After 3:30 PM on Monday, 4 January 1999, the original transmission footprints on faxes received from the C.o.T.s' legal advisers, the Commonwealth Ombudsman's Office, Ann Garms and associated others reappeared on Schorer's incoming facsimiles.

The reader should note that:-

- 1. Over the past few months, many of the C.o.T. members, i.e. Ann Garms, Fortitude Valley, Queensland, Ross Plowman, Toorak, Melbourne, Alan Smith, Cape Bridgewater, Victoria, Graham Schorer, North Melbourne, Victoria, have all experienced problems receiving from and/or sending facsimiles to each other. These problems include the presentation of the facsimile transformed, changing in size of print, i.e. expanded or reduced, changes in print font, and/or changes in presentation, i.e. one page being presented partly onto one page, the rest on the second page. According to a Telecommunications Engineer who has an experience in the field of intelligence, these difficulties are NOT a result of poor line quality, spikes in the line during transmission, result of a cross line. The simple explanation for such anomaly is the fax transmission has been captured into memory, then re-transmitted from that memory, and the anomalies have been caused by the extraction from memory during the re-transmission of the fax.
- 2. On numerous occasions, Graham Schorer has faxed documents to Ann Garms, then rang Ann Garms after the transmission was completed to discuss contents of it, only to discover the facsimile has not been received. On one occasion, one facsimile that was faxed three times, with a phone call after each transmission, only to discover the facsimile had not been received. Later that same evening, the document was received by Ann Garms.
- 3. In July 1998, Graham Schorer asked his office to facsimile a document to him at Senator Boswell's office. The first facsimile had been reduced and the presentation changed. From memory, it took two or three attempts before the true replica of the document was received. On his return to Melbourne, Graham Schorer rang Xerox to inspect the non-replica copy of the original documents that was received by Senator Boswell's facsimile machine in Canberra.

The enclosed Exhibits are unaltered copies of the original facsimiles received on Graham Schorer's fax machine (03) 9287 7001 or facsimiles received by the parties associated with the Telstra dispute.

Yours sincerely,

Graham Schorer

14B	Copy of same facsimile as 14A received by Schorer. Note: The foreign footprint that appears on top of page.	17/07/98	16:49
15 15A	Copy of facsimile sent by C.o.T. member R Bova to Senator Boswell's Canberra office. This facsimile has the correct original transmission footprint on top of page.	11/07/98	16:05

EXHIBIT NO.		DATE	TIME
15B	Copy of fax header received at Senator Boswell's Canberra office.	10/7/98	13:20
	It was either on this occasion or periods close to this that facsimile sent from (03) 9287 7001 to Senator Boswell's office were experiencing difficulties and been received in such a manner that indicated (according to current technical advice) that the facsimile had been captured or intercepted and re-transmitted.		
	The end product received in Senator Boswell's office had reduced size of copy and re-formatted copy to appear on more pages than the original being transmitted by facsimile.		
	On return from this trip to Canberra or another trip around this time, Xerox was called in to examine the fax machine connected to (03) 9287 7001 incoming calls to establish whether it was Schorer's machine causing such events to occur. NO FAULT FOUND IN MACHINE. Technician suggested it could be line quality or other such phenomena causing such problem.

RE: Soltware query

Dales

Thursday, 24 February 1994 11;07AM

Pater.

You are quite correct in your thought that the anecdotal reference applies more to AXE than ARE-11. 'Lockups' are generally wall-known as a problem in AXE exchanges, not only in Australia but in overseas countries as well. A number of upgrades have included software which would reduce the incidence of lockups.

There is nothing to add to my previous notes on ARE-11 exchanges concerning claims of 'incompatibility'

Regarding the problems in AXE

In the NASM database (which has a record of faults reported from AXE exchanges, dating from 1988 when it was introduced, eithough it was not in widespread use till 1892/3) there are 105 reports of Lockups affecting customers. Two of these reports refer to PBX services, but there are no reports referring specifically to

The TR database (Trouble Report system controlled by TNE to monitor problems reported, passed to Ericsson, and fixed by Ericsson) which was used prior to NASM for all records of faults does show tockurs on AXE equipment which would have affected customers and PBX functions, but does not provide any realistic count of problem occurrences. It does not record any lockups specifically related to "Commender' systems.

As a general comment, if the first line was locked up and calls allowed to flow on to the other lines, then no nails would be lost until all lines were busy, so I fell to sec how an estimate that "call loss could be up to 15% could be made or repeated with any degree of integrity.

There is also another NSIS database which would contain records of AXE faults which I have not checked yet but which I believe has records of large numbers of lookup instances affecting individual customers lines. I am rejuctant to initiate a search of the NSIS database at present as the faults recorded therein would have no bearing on the CoT services in question, unless the fault occurred on their individual time.

Kevin.

Fran, I am not sure where Alan is - please pass to him is he is on the 24th floor.

A13980

Kevin, Alan

Kevin. I did not use your comments on software (COMPATSL) at this time as they didn't seem retevent to the additional information that Austel have provided. John MacMahon writes as follows:

"I have references to Encasons having considered a lock up fault which was occurring where the first fine ; would be locked out and this would allow calls to flow to the other lines. It was said to erice through the

incompatibility of exchange software and Telecont's equipment. Encasons apparently provided a solution and advised that particular Commander systems were most vulnerable. E.: Casions are said to have suggested that call loss could be up to 15%.

Any thoughts on this new line?

Peter,

COMMONWEALTH AND DEFENCE FORCE
OMBUDSMAN

RECORD OF INTERVIEW

CONDUCTED ON

THURSDAY, 22 SEPTEMBER 1994

INTERVIEWERS:

JAMES HINDS, Senior Investigation Officer JOHN WYNACK, Director of Investigations

INTERVIEWEE;

MR JOHN McMAHON

MR J. HINDS: It is 3.20 pm on 22 September 1994. This is an interview with John McMahon at the offices of AUSTEL, 5 Queens Road, Melbourne. I would like those present to identify themselves. I am James Hinds, Senior Investigation Officer.

MR J. WYNACK: I am John Wynack, Director of Investigations.

MR B. MATTHEWS: I am Bruce Matthews. I work in AUSTEL's consumer protection area.

MR J. McNAMARA: And John McNamara from AUSTEL.

MR HINDS: Now, we will need to administer an oath. I am just wondering whether you want to make an oath or an affirmation.

MR McMAHON: An oath.

JOHN McMAHON, sworn:

MR WYNACK: Thank you, John. First of all, we're interested in filling in some understanding of the development of the fast track settlement proposal for the four original COTs which culminated in the agreement of 21 November 1993. I don't want chapter and verse. Our primary concern is what consideration was given to the processes whereby these people would be able to obtain documentation to enable them to submit their claims. So my first question is was there any discussion prior to the signing of the proposal of the means whereby the claimants could obtain documents?

MR McMAHON: Well, I think the - it was always envisaged that they would get their documentation from Telecom. Telecom wasn't going to hand it out simply by request and it was run down the FOI line and essentially AUSTEL always was under the impression that they would make FOI requests and have the documentation made available to them.

MR WYNACK: I don't have a copy of the letter with me, but AUSTEL in fact inaudible to Telecom and an FOI application lodged by Ann Garms. Robin Davey actually relayed it on to Telecom complete with the application fee. The letter concluded with a statement along the lines - or a request along the lines, "Would you process this application

urgently as Ms Garms needs the information to submit her claim to - under the FTSB." Were you aware of that letter going out, John?

MR McMAHON: Yes.

MR WYNACK: And is - was that really the expectation that Telecom would give some priority to FOI requests?

MR McMAHON: I think the background to that letter was that there was not good feelings between Telecom and the COT cases. There wasn't a high level of mutual trust at that stage and when Mrs Garms sought to get documentation from Telecom she just wanted to involve AUSTEL in the process, and so I think it was a unique set of circumstances, but rather than lodge a request directly with Telecom she wanted to relay it through AUSTEL to try to give it that extra highlighting, I guess, and certainly the COT cases had been reported to AUSTEL the difficulty that they had faced in getting documentation from Telecom. You know, we knew it wasn't really forthcoming and certainly the fast track settlement proposal sought then to lodge their submission within six weeks of agreeing I think, and so it was apparent that the success of the whole arrangement was going to revolve around getting prompt access to their documentation. And so when Mrs Garms' request was relayed by the chairman he just noted that prompt co-operation on the provision of documentation was - seemed to be important.

MR WYNACK: Do you recall whether there'd been any discussion with Telecom officers generally about giving some priority to the FOI requests.

MR McMAHON: Well, my recollection is there wasn't a - there wasn't such a discussion. We've always taken the point of view that FOI is not within our jurisdiction and it's not for us to make too much of a - too much of the issue, but as I've said you know there have been occasions in which the allegations made by the individuals that they had difficulty in getting these documentation provided was raised with Telecom, but it was raised you know as an issue of relevance and not one that we were in a position to pursue, but just in the spirit of what had been entered into it shouldn't - it was a necessary part of the process.

MR WYNACK: In that period, around November just prior to the finalising of those agreements, did Telecom and AUSTEL discuss whether there were perhaps alternatives to FOI to getting the documents to the COTs? Did Telecom for example suggest another way?

MR McMAHON: Prior to the FOI - prior to the fast track, I don't believe they - I don't believe that took place. I think from the - originally

the - originally we always thought that the FOI mechanism was the one that would be utilised. As I said, I mean, Telecom wasn't handing out documentation without FOI. And I think that you know part of Telecom's attitude was conditioned by some of the things that happened in the early stages of FOI where some of the - at least one of the COT cases got documentation which was sensitive as far as Telecom was concerned under FOI and they put it into the public arena, and the impression I got was that Telecom's attitude to FOI hardened at that point, that they didn't want to have sensitive documentation going into the public arena and so there was provision in the arbitration procedures whereby the arbitrator could determine - or if he considered that there was documentation that Telecom had that hadn't been made available, then he could seek that extra material under that provision and I think there was some suggestion that Telecom would be happier with that rather than FOI as a means of preserving the confidentiality of the documents.

MR WYNACK: These events occurred back in late February through March '94 I suspect, the ones you're talking about. That would have been between the period when an arbitration process was proposed by Dr Hughes and the period when the COTs accepted or agreed to enter into the arbitration in April - or are we talking about a different period?

MR McMAHON: We're probably talking about a probably a different period. I think we're probably talking about an earlier period and I think the - I think the things that really gave rise to the attitude was summary material on taping and that would have - that would have been, what, early - that would be early January, wouldn't it?

MR WYNACK: Yes, I think this correspondence was late December.

MR McMAHON: Yes, late December, just after Christmas, and I think the release of some suggestion as to the taping of conversations to the press was a bit of a watershed.

MR HINDS: So the proposal was in November and this correspondence that?

MR McMAHON: Yes, yes, the - the fast track settlement proposal had this provision whereby the arbitrator could seek additional detail. Now, that I believe is a fairly standard clause in arbitration. But it was probably after the - putting in the public domain some sensitive documents that Telecom started to see that that might be from their point of view a preferable mechanism. I mean, that's my judgment. I've got nothing to support it.

MR WYNACK: The fast track settlement proposal, clause 1B - have you got a copy of it there, John?

MR McMAHON: Yes.

MR WYNACK: It refers to the attached copy of a proposed arbitration procedure. Is your recollection that that proposed procedure in that paper, which I have not seen, but say - - -

MR McMAHON: Do you want it?

MR WYNACK: Yes, okay, then, perhaps it would fill out my files a little. But was it ever intended that those rules in that procedure would apply to the four COTs who were signatories to the fast track settlement proposal?

MR McMAHON: The - yes, it was a general approach. It was the approach that Telecom was suggesting that they would use in arbitration procedures and my recollection is we put these details in front of the COTs to let them get a feeling for the general approach Telecom was intending to adopt. But they - their own fast track settlement was going to have some unique provisions. So this would be the general approach, but there would be certain variations for them in terms of - yes, some of those conditions would have been liberalised for them.

MR WYNACK: We have been informed by two of the COT members that Robin Davey assured them that the rules in that document which at some stage was attached to the proposal were not to apply to the four COTs and that they were never actually given a copy of that document, the document being the attachment referred to in clause 1B. Have you any recollection if that was so?

MR McMAHON: No, I - I couldn't state firmly one way or the other. I - I do believe that - I mean, certainly my belief, without going back to the files, and I'm not even sure that the files would establish it. This is some of the chairman's own papers that don't have the COT documentation you know from the COTs themselves. It's more his writings. But I believe that they were - that this document was put in front of them and certainly - certainly discussed with them. I mean, you know we had discussions in the boardroom here as to the general approach, and I think they - my recollection - I'll just check with Bruce, but my recollection is they came back with comments on it.

MR MATTHEWS: Well, that's my general recollection as well, but I'm not certain on it either. I would have to go back and check our file documentation.

MR WYNACK: It would be difficult for us to verify whether it happened. One way to do it of course would be to speak to the former chairman - former chairman, isn't it - - -

MR McMAHON: Yes.

MR WYNACK: --- on the matter. We did see the - what purported to be copies of the signed agreements - there were four of them - and none of those had the proposed arbitration procedure rules appended to and I'd be interested to know whether or not when - was it AUSTEL who forwarded them on to Telecom or did the Telecommunication Industry Ombudsman? I'm not sure now. But I'd be interested to know whether or not they were appended at the time they were signed.

MR HINDS: Well, would your records show that? You say you can check your records. Would they show that or - - -

MR MATTHEWS: It may show that. Our records may show that. I'd have to check that.

MR McMAHON: I would hope though they would show one way or the other, but I think pages have been on and off the file on so many occasions that I couldn't 100 per cent vouch for it, but the chances are they showed them and I guess we can identify that before you leave the premises.

MR WYNACK: No, there's no need to do that. Perhaps you can contact me some time later and let me know. So I'm quite happy for that - - -

MR McMAHON: All right. But the other thing I'd say - and sure, I appreciate the timing element in - but these conditions that are set out in the proposed procedure were also incorporated in the public COT report as to what the procedure that Telecom was proposing.

MR WYNACK: Well, I haven't looked at the report - the AUSTEL report - and the reason is that the Ombudsman's investigation here is confined to a complaint about Telecom's processing of an FOI request. The questioning I'm engaging in here now is necessary because of statements made - conflicting statements made as to what the expectations of the parties were in regard to the provision of documents prior to the formal processes being agreed with Dr Hughes, which occurred ultimately in April but commenced on 3 February.

If I could just depart from that for the moment, has AUSTEL been involved in seeking to speed up the provision of documents by Telecom by any means or is that just - once the agreement was reached did you bow out then?

MR McMAHON: I think there have been a number of occasions on which we have mentioned to the Telecom personnel that the COT cases were alleging they were having difficulty in getting it and my recollection is we probably made reference to that in one or two letter to Telecom. But again because we were - it was outside our jurisdiction you know we didn't make a big issue of it and indeed when the - when some of the COT cases have complained to us you know we've said, "Well, there's a very limited amount that AUSTEL can do about it. It's not within its power but you could well take the case to the Ombudsman's office."

MR MATTHEWS: Can I add a comment to that as well, and that is in our report - one of the recommendations in our report that goes to Telecom's treatment of FOI applications and I think the recommendation said something along the lines that Telecom should increase the resourcing of its FOI area and improve the treatment of FOI applications, so in a sense that's a general pressure that we put on Telecom to hurry up the process.

MR WYNACK: What was the date the report was issued, the AUSTEL report?

MR MATTHEWS: The final report was April - I can't remember the date in April, but April 1994. The draft report was produced in March 1994 and Telecom received their copy of that at that time.

MR WYNACK: So that observation was made by AUSTEL notwithstanding that there was in place then, or about to become in place, an arbitration process which enabled the arbitrator to make directions that Telecom provide documents?

MR MATTHEWS: It was a general statement. It didn't necessarily apply to the four COT cases. It was just a general statement.

MR McMAHON: But, yes, I mean to say you know some of the suggestions made were that FOI was not dealt with when the - when the person with that responsibility went on holidays. You know, nobody filled in for him. Whether that's right or wrong I don't know, but that was the suggestion made and I've never heard it denied. So you know - and I think that's part of the background to the recommendation that Bruce identified there.

1

provided to AUSTEL and some other people in the period prior to the date of his FOI application which was 24 November; he specified that date. And we were interested to ascertain whether AUSTEL has a record of the documents of Telecom which it examined in the 12 months prior to November 1993.

MR McMAHON: No, we would not.

MR WYNACK: How did you examine documents during your investigation?

MR McMAHON: We - we firstly put a direction on Telecom to make available to us all relevant documentation. The - Telecom came and said, "Look you know these are live documents that we're working on, etcetera. Rather than flood you and disrupt ourselves, would it be acceptable to you that we establish a room at Telecom headquarters in which we assemble all relevant documentation that you have sought? Where there are additional folios going onto those files you know we will continue to put them on so that you have the advantage of seeing any additional material that's coming on." And the chairman agreed to that, that we would have full access to all documentation in a viewing room in Telecom and so our personnel went over there and were able to assess - access them and where they saw material that they wanted to copy and to consider and put on - back on our record here, they took copies at the time.

MR WYNACK: So when you wanted additional information, that is, information which your people perhaps couldn't find in the viewing room, how would you go about accessing that? Would you write to Telecom or

MR McMAHON: Yes, well, you know the rules were essentially that everything relevant was to be there. So everything should be there. You know, where we did seek additional material - we might have got a clue to its existence from examining the files - yes, we did write to Telecom and ask them can they provide us with something specific in addition.

MR WYNACK: And presumably their response would be in writing and would say they're now in the viewing room, or would they deliver them to you, or was the viewing room generally regarded as the ---

MR McMAHON: Yes, you know my recollection is there were a couple of documents which involved them in processing some material and drawing up some additional charts which they forwarded to us eventually. Other things - if it was a file to which we saw references being made in the

view room but we couldn't locate it, we asked them for it and that was made available in the viewing room.

MR WYNACK: In the viewing room. So it may well be accurate to say that all of the information provided by Telecom to AUSTEL in connection with that investigation was provided in the viewing room.

MR McMAHON: That is essentially the case, yes. You know, I would say that's certainly 99 per cent.

MR WYNACK: I listed five documents in my note to you? Do they mean anything to you, those - - -

MR McMAHON: Certainly do. The first two and the last two are the same.

MR WYNACK: That's supplementary into exchange network. That's - it's not a - it suggests another name for the one report.

MR McMAHON: Yes.

MR WYNACK: And were they in existence prior to - - -

MR McMAHON: Well, the first - let's say the Telecom submission to AUSTEL - I mean, I can't say anything as to the date that it came into existence. It was made available to AUSTEL as Telecom's main submission. On the day we received it we never had any access to a preliminary draft or anything like that. It came to us in November. The other two documents that you list there, again we never saw any preliminary draft. They came to us with a - under covering letter dated 7 January.

MR WYNACK: 7 January what year?

MR McMAHON: '94

MR WYNACK: That was - right, so the first you saw them was 7 January but you don't know when they were created?

MR McMAHON: No, but I mean let's say the -you're talking about the BCI supplementary inter-exchange network. Now, the - that was a matter of conducting some traffic tests in a range of exchanges and the document itself shows that they were - that the tests were run in December. So presumably they were run in December and the report assembled and prepared in late December, early January.

MR WYNACK: Those were the reports of the BCI tests. Did you ever examine the raw data on which those reports were based?

MR McMAHON: I don't believe so. I mean, it was - those reports were essentially reviewed by the technical people in AUSTEL. Yes, the background was BCI had undertaken some technical tests and the COP cases themselves and AUSTEL's technical people had some reservations about them and as a result of those reservations Telecom had BCI do those supplementary tests and the rotary hunting tests. So my recollection is that those reservations were reservations which arose from viewing the original report rather than the technical data itself, you know, the detailed technical data.

MR WYNACK: Do you have the date on which you received that Telecom submission?

MR McMAHON: We would have, yes.

MR WYNACK: It's critical for me to know whether or not it was before or after 24 November.

MR McMAHON: Right, yes.

MR MATTHEWS: We should be able to give you that today before you leave.

MR WYNACK: Yes, okay then, Bruce, if that's convenient. I don't think I need ask you any other questions, except perhaps recently you wrote a very short note to Ann Garms - - -

MR McMAHON: To Ann Garnis, yes.

MR WYNACK: Yes, 14 April.

MR McMAHON: Right.

MR WYNACK: And it said, "This letter is to confirm that the fast track settlement proposal drafted by AUSTEL and signed by Telecom on 18 November and by you on 23 November refers to an assessment process and an assessor and makes no reference to arbitration or to an arbitrator." What prompted that ---

MR McMAHON: A request from Mrs Garms, "Would you give me such a letter?"

MR WYNACK: I see.

MR McMAHON: So she phoned me up, asked me would I give her such a letter and it was simply a confirmation of fact.

MR WYNACK: Had there been any other requests from the COT case people in recent times for similar confirmations about the nature of the fast track settlement proposal?

MR McMAHON: I don't think so. I don't have a recollection of it. I mean, certainly there's always been some concern, I mean, that so many almost signings of various documents and you know they've been frightened by various aspects of them such that they - at the end they jumped and wouldn't sign this type of thing. And this has been an issue with them for a long time, whether they were going into an assessment process or an arbitration process, and the - when they were taken through - when they made their own views known and when they were taken through the way the proposal was shaping up, it was just that it was in terms of an assessor. The final documentation made reference to arbitration, but essentially gave them an assessor.

MR WYNACK: What involvement did AUSTEL have with Dr Hughes in developing the arbitration rules?

MR McMAHON: I don't know that it had any. Indeed, when Hughes' appointment was announced, there was some question as to whether he you know would want a briefing from AUSTEL as to the background of the case. To my knowledge he didn't seek that and it was very much the chairman's point of view that he wasn't going to offer or put himself forward unless there was some wish from Hughes to know of it, and I don't know - I don't know that they ever met. I've certainly never met him.

MR WYNACK: Well, thank you, John. Have you got any questions regarding any of those things?

MR HINDS: No, I don't think I have.

MR WYNACK: Would you like to add anything, John, to expand on anything you've said?

MR McMAHON: No.

MR WYNACK: Well, in that case perhaps we can terminate the interview. It's now 5 to 4. Thank you very much.

INTERVIEW CONCLUDED

AUSTRALIAN TELECOMMUNICATIONS AUTHORITY

17 February 1994

Mr Steve Black Group General Manager Customer Affairs Telecom

Fax 632 3241

Dear Mr Black

FAST TRACK SETTLEMENT PROPOSAL

Further to our telephone conversation of even date, I confirm that the terms of the procedure to be followed by Dr Gordon Hughes in resolving the claims of the four COT Cases subject to the Fast Track Settlement Proposal are for Telecom on the one hand, the four COT Cases, on the other and Dr Hughes to agree. For AUSTEL to become involved in that process would be to usurp the role of Dr Hughes.

Subject to that qualification, I can, however, provide you with my understanding of the Fast Track Settlement Proposal by confirming the advice conveyed to you in our telephone conversation to the effect that -

- The thrust of the Fast Track Settlement Proposal was review and assessment. This may be seen by contrasting the words in the Fast Track Settlement Proposal with their emphasis on "... a review ... " and on "... an assessor ... " with the words in the Proposed Arbitration Procedure which was attached to the Fast Track Settlement Proposal.
 - While clause 2(f) of the Fast Track Settlement Proposal dealing with the causal link was based on clause 8(j)(iii) of the Proposed Arbitration Procedure, it quite deliberately omitted the words "... giving due regard to the normal rules of evidence relating to causation ... "which appear in clause 8(j)(iii). While clause 10.2.2. of the "Fast Track" Arbitration Procedure which I understand has been given to the parties appears to be consistent with clause 2(f) of the Fast Track Settlement Proposal, the words "... accepted legal principles relating to causation and assessment of loss ... "in clause 10.2,3 appear to be at odds with the thrust of clause 2(f).
 - The Fast Track Settlement Proposal was silent on the issue of AUSTEL determining a maximum amount recoverable in tort against Telecom. It was certainly not my intention that any amount so determined by AUSTEL should apply to the four COT Cases' claims against Telecom.

4 63

While the Fast Track Settlement Proposal was also silent on the issue of "set offs", I did have in mind that amounts previously paid by Telecom to any of the COT Cases would be "set off" against the amount, if any, determined in their favour. The issue of the "set off" of "... services carried out ..." in terms of clause 10.1.2 of the "Fast Track" Arbitration Procedure is one which perhaps should be clarified with Dr Hughes.

Yours sincerely

Robin C Davey Chairman

Mr Warwick Smith Telecommunications industry Ombudaman Ground Floor 321 Exhibition Street MELBOURNE VIC 3000

Deer Warwick.

t refer to your suggestion re. Mr Penglily as an elternative assessor. Telecom's position is still as per my original letter to you of 24 December 1993. Telecom's view is that your nominee, Mr Rogers QC, is a sultable person who will provide an independent and impartial view. In respect of Mr Pengilly I do not have a detailed CV, but my enquiries have revealed that his primary expertise is Trade Practices Law and this background is not of direct relevance to this arbitration. An assessor with a greater level of direct commercial expertise and judicial background such as Mr Rogers QC is seen as necessary.

I have received your faceimite of 11 January 1994 and the attached letter from Mrs Garms. Mr Rumble's contact with Mrs Garms was in direct response to the voice monitoring issue and was also Intended to deal with the supply of information under her FOI request. At no stage did Paul Rumble raise the issue of alternative assessors. Please be assured that Telecom will only consider assessors nominated by yourself and has not, and has no Intention of, entering into discussions with the other parties to the arbitration in respect of potential assessors.

4 have saked the Corporate Solicitor to comment on Mrs Garms' statement that Telecom had previously accepted the appointment of Mr Fox as sultable to themselves. Apparently, the name of Mr Fox was included on a list of names which was discussed with Mrs Garms some time ago. My understanding is that this matter never progressed and does not appear relevant to the current deliberations.

My personal view is that the appropriate way forward is to appoint one assessor to ensure the consistent application of legal principles in these cases, in addition, the assessor needs to be a person of some eminance is legal and commercial negotiations as the outcome of these cases is likely to extablish a precedent for future complaint handling.

However, it does appear to me that the claimants are losing eight of an important factor and that is the fact that the TIO is the person with the responsibility for arbitrating on this matter, and that the assessor that is now under discussion is in fact making a recommendation to the TIO. Under these circumstances it appears to me that far too much weight is being placed on the appointment of the assessor. The primary requirement is that this person is definitively impartial and has the necessary professional standing and legal and commercial qualifications.

Please contact me directly (6327700) If I can be of any further assistance in obtaining a speedy resolution. of this matter.

Yours sincerely,

GS 464

PAHLIAMENT OF AUSTRALIA . THE SENATE

SENATOR RICHARD ALSTON

Deputy Leader of the Opposition in the Senate Shadow Minister for Communications

28 October 1993

Mr Robin Davey Chairman AUSTEL PO Box 7443 St Kilda Road MELBOURNE VIC 3004

Dear Robin

Thank you for the opportunity to explore the implications of the latest proposals for resolution of the COT Case complaints and to put in place an appropriate process to deal with future complaints.

As I understand the proposal it would be based on the UK model. The process would be managed or facilitated by the Telecommunications Industry Ombudsman, who would then contract out arbitration responsibilities to one of a panel of arbitrators for each of the claims in order to enable all matters to be dealt with as expeditiously as possible.

Both sides would then put written material before the arbitrator who would then hand down a judgement without taking submissions or hearing evidence. The UK experience suggests that complex cases can take up to three months before a decision is handed down but it could be anticipated that these matters would not take that length of time.

I have already indicated to Ian Campbell that, whilst I was generally inclined to favour the proposals, the Opposition would reserve the right to consider the establishment of a Senate Select Committee if AUSTRL's report raised matters of serious concern regarding outstanding problems or if there is evidence to substantiate the persistent complaints made by COT Case members, particularly Mr Schorer, of "misleading and deceptive conduct" on the part of Telecom.

You will have received a copy of a letter dated 23 October 1992 from Mrs Ann Garms to Mr Frank Blount. Attached to this letter is a document setting out what are described as "extracts of documents identified by Coopers and Lybrand to substantiate Corallegations".

...... HOLL HAD

If the quotations are accurate they would indicate that, despite a concession from Telecom Protective Services on 29 May 1990 that 28 incoming and unanswered calls had been received at Mrs Garm's restaurant, less than a month later the Corporate Secretary was indicating that special monitoring equipment had not revealed any problem. Whilst such an answer may be technically correct in relation to the results of the monitoring equipment, it clearly understates and indeed dismisses problems which Telecom had already conceded.

Further entries refer to "a minor intermittent problem with a relay contact", "a possible faulty rotary", "line one is being stepped over for no apparent reason", "network support confirmed a fault that exists", "problems being experienced ... line one going dead for a few minutes".

Yet on 17 January 1991, Telecom apparently reported to the Commonwealth Ombudsman that "all reports have been carefully checked but nothing has been revealed to indicate any problems ... so far nothing has been found to substantiate the customer's various claims". This answer would seem to be, at the least, disingenuous. In similar vein is the reply on 6 September 1991 "we have been unable to determine any network based condition that has the potential to cause the problems you allege". Again this would seem to be a less than frank answer. A further example would seem to be contained in the letter dated 15 September 1992 and the letter dated 6 April 1993,

If indeed Coopers and Lybrand have identified these documents and this would seem to be confirmed by a report in yesterday's from you that Coopers and Lybrand will not be dealing with these matters.

I therefore seek your confirmation that you will fully investigate such allegations and if necessary make the appropriate recommendations to ensure that such behaviour is unlikely to occur again. It could also be appropriate to recommend that in the event of future corporate misbehaviour, the Ombudsman should have jurisdiction to make a punitive award of damages.

Yours minoerely

Richard Holan

lan.

I have just issued a note to Regions re the need to retain Fault history material. I stipulated a notional period of seven years as a starting point but this may or may not be appropriate.

In the more general sense Freehills have advised a need to maintain all records in accordance with teh statute of limitations and the archives act. I think we need some clear words to all Telecom staff on this subject if we are to avoid future problems. Is there anything in hand on this? What do we need to do?

I am thinking of a huge amount of information including network performance data, construction data, service order data, sales data, etc etc. Do we have any exemptions? How do we manage this?

Leopard History

Oate:

Monday, 25 October, 1993 2:36PM

Our CoT customers are currently critical of our failure to keep historic fault records, claiming that this jeopardises their ability to prosecute their claims.

I am advised by the Leopard people that on a weekly basis Leopard data greater thatn 12 months old is striped from the data base and sent to an outside agency for the preparation of microfiche. These fiche are distributed to the user businesses (Fault Bureaux) and the tapes are then reused, wiping the data. No central store of data is maintained.

Would you please review your Regions arrangements for maintaining historic fault data and ensure that this information is kept for (say) seven years or until further advice on this is provided. I would like to know how much data is available in each Region, particularly for the major cases subject to the Asutel investigation.

I have asked our legal people to advise on the appropriate data retention policy and when that is clear I will look at teh desirability of establishing a central store rather than a distributed store.

would welcome your comments.

ښتن.

A lot of attention is being given to Telecont's alleged failure to maintain fault records over time.

I have spoken today to lan Woolle, Leopard Manager, who tells me that Leopard is stripped on a weekly basis on a rotational basis so that only 12-13 months history is kept on the data base at any time. The tape of the strip is forwarded to an outside agency where microfiche of the stripped data are produced. These fiche are then dispatched to the operational fault bureaus where they may or may not be kept. The tapes of the stripped data are reused, hence loosing the data, and no central store of liche is maintained.

lan advises that he has previously sought legal advice from the corporate centre (assume the Corporate Solicitor's office) re the need to keep historic data but the answers have been unclear, probably due to our historic protections from suite and hence no requirement to defend actions.

Given the current climate we need to clarify the requirement to maintain records (centrally would be preferable) and an opinion on this would be appreciated. It may be that we require Austel to stipulate the period.

in the meantime I will advise all Regions to ensure that they maintain Fiche records on an on-going basis pending clarification.

it is important to ensure that Austel and other players such as C&L are aware that because of our regulatory/legal position there has been no need to maintain historic records. If this absence of records is to be a plank of the CoT argument then we should re-state our legal position - they cant have it both ways!

I would welcome your comment. I would also welcome copies of any legal opinions provided on this subject **OTOVIOUSIV**

High

From: Darling, Peter

To: Campbell, Ian; Marshall, Ross

Cc: Hambleton, Dennis V

Subject: AUSTEL Mandatory Performance Regulation

Date: 13 December 1993 10:38

Priority: High

Ross and lan,

This E-Mail is to alert you to a possible regulatory interaction with the current work on "COTS Cases" and ongoing work with AUSTEL on network performance.

As you know, a Ministerial Direction gave AUSTEL power to set end-to-end network performance standards. The AUSTEL Standards Advisory Committee established a working group (designation WG 12/1) to set these standards, and Telecom has had a fairly hostile reception in this working group.

Yasmin Dugan from my area has been co-ordinating this work, working closely with Network Products (especially Operations) and the Business Units. The AUSTEL staff member leading the group originally wanted a very wide list of mandatory parameters, but after discussion with Bob Horton and a presentation to the Standards Advisory. Committee by Yasmin, AUSTEL have agreed to limit the scope of the initial work to the few parameters our customer surveys had shown as being of most concern. This work is now well advanced.

V

I believe that the "Service Operation Deemed Satisfactory" Project Team as part of the COTS case work has also been looking at issues relevant to a service specification and testing procedure, and that originally they came out with a large number of parameters to specify and test.

The powers to set mandatory performance standards that AUSTEL has been given could well be used in some sort of regulatory outcome from AUSTEL's current COT case investigation. I believe it is essential that we provide a consistent approach to AUSTEL. I'm hopeful that your team has taken Telstra's corporate position to AUSTEL as the starting point for their work. I strongly request that you give us early advice if for strategic reasons we should change our position with AUSTEL in the SAC and the working group 12/1.

Peter Darling, Standards & Regulatory Strategy

Telecom's Product Managers responsible for delivery of the PSTS to customers have now agreed to alter the BCS tariff filing to remove reference to the technical specification and replace that reference with a list of customer focussed technical parameters.

Because the SODS project team reports to a Steering Committee upon which AUSTEL is represented, it is therefore important that the project team ensures that it has an agreed Telecom position in respect of the service specification prior to its formal presentation to the Steering Committee.

I am concerned that within the project team there appears to be an undue focus on trying to develop a service specification which will be "all things to all people". That is, there would appear to be an attempt to develop a specification which addresses not only BCS service difficulties but also potential difficulties arising from a customer's use of CPE. This is not appropriate. AUSTEL has already issued technical standards in relation to CPE and its connection to a carrier's network.

Where Telecom supplies a service to a customer and also has an ongoing obligation in relation to the CPE (either via a rental or maintenance agreement) then your testing programme should be enhanced by reference to the requirements of the AUSTEL technical standards in relation to the CPE.

I note the timeframe for the project team is tight. I would strongly recommend that you proceed with caution and that your service specification should be narrow in focus. It should, in the time available only reference the same parameters as those proposed to be inserted into the new BCS tariff filing.

Please note that once AUSTEL's 12/1 Working Group has finalised its deliberations, then it is likely that there will be greater pressure placed on Telecom, a general carrier, to expand the range of technical parameters to be included in its BCS tariff filing. Telecom's acceptance should only occur after a careful process of consideration and deliberation and with a full understanding of the impact upon the Company in terms of the delivery and ongoing monitoring of service within those specifications.

A separate, but related, issue is the need to determine how Telecom will undertake a test call programme on an individual customer's service during the exchange "busy hour" or during a time period nominated by the customer. As you will appreciate, a test call programme of the nature contemplated in the scoping document for your project team (minimum 300 calls; outgoing/incoming) will greatly impact upon the customer's normal use of his/her service. I would ask that you obtain early advice from your Steering Committee (particularly the AUSTEL representative) as to how Telecom is to undertake this test call programme.

If you have any further questions on this please contact myself or Merv Sewell on (03) 634 8898 or (03) 634 8876 respectively.

Jeff.

The purpose of this memo is to provide formal Corporate Regulatory feedback to your project team on issues relevant to the development of a service specification and testing procedure arising out of the "COT Case" investigations.

I note that a number of these issues have previously been raised with your team by Merv Sewell, Assistant Manager Technical Regulation, who is assisting your project team.

Key Issue

Any service specification determined by the SODS project team needs to be consistent with Telecom's Corporate position in relation to BCS tariff filing and response to AUSTEL's Working Group 12/1 - Network End-to-End Performance Parameters.

Background

- Telecom as a general carrier contracts to supply services with its 8.5 million customers via provisions of the BCS tariff filing pursuant to the Telecommunications Act 1991 as notified to AUSTEL.
- Currently the technical characteristics associated with the PSTS BCS tariff filing are addressed by reference to Telecom's Technical Specification Document No. 1529.

CODED to

"FAST-TRACK" ARBITRATION PROCEDURE (6.27 - 4.4. 13.4.24 1.28 9)

Scope of the Procedure Scope of the Procedure

- This Procedure ("the Procedure") Provides arbitration with the pursuant to the Commercial Arbitration Act 1984 (Victoria), as amended, ("the Act") as a final and binding method of resolving the disputes listed in Schedule A ("the Disputes" between the customer named in Schedule B ("the Claimant") and Telstra Corporation Limited ("Telecom Australia").
- 2. The Claimant and Telecom Australia will be bound by the Arbitrator's decision, and the Claimant, by accepting the application of the Procedure to the Disputes, subject to the Appeal provisions of the Act, will be deemed to have waived all rights to commence proceedings in any court or other forum in respect of the facts giving rise to the Disputes or the Disputes themselves.
- 3. Arbitration under the Procedure will be administered independently by the Telecommunications Industry Ombudsman of 321 Exhibition Street, Melbourne ("the Administrator") and conducted by Dr Gordon Hughes C/~ Hunt & Hunt, Solicitors, 21st floor, 459 Collins Street, Melbourne, 3000 ("the Arbitrator").
- 4. A request for arbitration under the Procedure in respect of the Disputes does not relieve the Claimant from any obligation the Claimant may have to pay Telecom Australia any other amounts which are due and are not part of the Disputes the subject of this arbitration.

Commencement of Arbitration

5. Each party shall complete and sign a Request for Arbitration form as set out in Schedule C in respect of the

4/fjs40\$601

The Black Beel

OLDEN

- 6. Unless the Arbitrator otherwise specifies, the arbitration will be on documents and written submissions only. The Arbitrator may form the opinion that he requires one or more oral hearings in which event the Arbitrator will, after consulting with the parties, advise the parties of a date, time and venue for those hearings. Any oral hearing will not be open to the public nor any other non-parties to the arbitration apart from any of:-
 - The Administrator;
 - A representative or representatives of the Administrator;
 - Special Counsel to the Administrator, Mr Peter Bartlett, C/- Minter Ellison Morris Fletcher, Solicitors, 40 Market Street, Melbourne ("the Special Counsel"); or
 - A representative or representatives of the Special Counsel.
 - With the leave of the Arbitrator, a member of the Resource Unit (as defined in Clause 8.1).
 - With the leave of the Arbitrator, one or more professional consultants to a party. If such leave is granted, the other party may also have its professional consultants present.

I tem Black

d/fjs405601

ID:61-3-2877001 09 JUN'94 11:54 No.026 P.05

In an oral hearing no crosslexamination of any witnesses is:

In an oral hearing no cross examination of any witnesses is the parties shall be in the allowed. Legal representation of the parties shall be in the at the Arbitrator's discretion. If the Arbitrator allows the party to have legal representation then the sother party to have legal representation then the sother party to have legal representations have legal representations.

All written evidence shall be invited form of an affidavitum the or statutory declaration. All oral evidence shall be on the cath or affirmation. Either party or the Arbitrator may request a transcript of any oral evidence or submission given at the hearing. A copy of the transcript shall be given to the parties, the Arbitrator and the Special Counsel. The cost of the provision of the transcript shall be part of the administrative costs of the Procedure.

A copy of all documents and correspondence forwarded by the Arbitrator to a party or by a party to the Arbitrator shall be forwarded to the Special Counsel. A copy of all documents and correspondence forwarded by a party to the Arbitrator shall be forwarded by the Arbitrator to the Special Counsel and the other party.

- 7. The Procedure will be as follows:-
 - 7.1 The time limits for compliance referred to in this clause are subject to the overriding discretion of the Arbitrator and may be the subject of submissions by the parties.
 - 7.2 The Claimant shall within 4 weeks of receipt of written notice from the Administrator pursuant to Clause 5 that he has received completed and signed Request for Arbitration forms send to Telecom and to the Arbitrator in duplicate, its Statement of Claim and any written evidence and submissions ("the Claim Documents") in support of that claim. The Statement of Claim shall, with sufficient particularity, state the following:

7.2.1 the identity of the Claimant;

Stewn 3 Carl

- 7.2.2 the service difficulties, problems and faults...

 in the provision to the claimant of the provision to the
- 7.2.3 the loss allegedly suffered and particulars of how that loss is calculated.
- 7.3 Telecom Australia shall within 4 weeks of receipt by it of the Claim Documents send to the Claimant and the Arbitrator in duplicate its Statement of Defence, and any written evidence and submissions ("the Defence Documents") in support of that defence. The Statement of Defence shall, with sufficient particularity, state the following:
 - 7.3.1 Telecom Australia's answers to the allegations referred to in the Statement Claim; and
 - 7.3.2 any affirmative defence which Telecom Australia will seek to rely upon.
- 7.4 The Claimant may send to Telecom Australia and to the Arbitrator, within 4 weeks of receipt of the Defence Documents, a Reply to the Statement of Defence together with any supporting documents. Such Reply will be restricted to points arising in the Statement of Defence and the Defence Documents, and may not introduce any new matters, points, or claims.
- 7.5 Without limiting any rights the parties may have to obtain documents or evidence under the Act, either party may, upon reasonable notice in writing to the other party, apply to the Arbitrator for directions upon any matter in relation to the proceedings including an amendment to the Statement of Claim,

d/fjs405601

Defence or Reply, the production of further documents, further particulars of Statement of Claim, Statement of Defence or Reply. Each party is entitled to be heard on any such application. In giving directions, the Arbitrator, where appropriate, shall impose time limits for compliance with such directions. Oncany, such application, the Arbitrator may not require the production of documents protected by legal professional privilege.

- 7.6 The Arbitrator may by notice in writing require either party to provide any further documentary information and/or particulars which he reasonably considers would assist him.
- 7.7 If the Claimant does not furnish the Claim Documents within the time allowed pursuant to sub-clause 7.2 or any further time allowed by the Arbitrator and does not remedy this default within 2 weeks after dispatch to the Claimant by the Arbitrator of written notice of that default, the Claimant may, at the Arbitrator's discretion, be treated as having abandoned the Claimant's claim under the Procedure, and the arbitration will not proceed.
- 7.8 If Telecom Australia does not furnish the Defence Documents within the time allowed pursuant to subclause 7.3 or any further time allowed by the Arbitrator and does not remedy this default within 2 weeks after dispatch to Telecom Australia by the Arbitrator of written notice of that default, then subject to any directions the Arbitrator may give and subject to Section 17 of the Act, the dispute may be decided by the Arbitrator by reference to the Claim Documents only.
- 8.1 The Arbitrator may, as he sees fit, use as a resource unit the services of personnel employed by Ferrier Hodgson, Chartered Accountants, 459 Collins Street,

Stie Ber Blee

Melbourne and DMR Group Australia Pty-PLtdy Of language Southbank Boulevarde, South Melbournes (Other Resource of Notes) Unit 1).

- 8.2 The Arbitrator may require the Resource Unit to opered in Rexamine documents, inspect premises for a systems for a local carry out such other enquiries or research as the constant of directs. Such requirement shall be in writing and a copy of it shall be sent to the parties at the same time as it is sent to the Resource Unit. A report of any such activities shall be made available to the parties who shall be entitled to make a written submission upon such report on such terms as the Arbitrator thinks fit.
- 8.3 The Arbitrator shall disclose to the parties in writing all advice received from the Resource Unit.

 The parties shall be entitled to make a written submission in relation to such advice on such terms as the Arbitrator thinks fit.
- 8.4 The fees and expenses of the Resource Unit shall be part of the administrative costs of the Procedure.
- 8.5 Prior to undertaking any work or receiving any documentation or information relating to the arbitration each individual who is part of or engaged by the Resource Unit shall sign a form of confidentiality undertaking as in Schedule E and shall send that signed confidentiality undertaking to the Administrator.
- 9. The Arbitrator may, as he thinks fit, combine parts of this Procedure with parts of the identical procedure being used in respect of claims by those whose names appear in Schedule D including the hearing of oral evidence concurrently.

a/fjs409601

The Award

OLDEN

The Award

- 10. The Arbitrator shall make his award having regard to the questions of Telecom Australia's liability and questions of leaders liability and questions of the loss as set out in this clader. The parties agrees that in the clades the parties agrees that in the claimant's claims Telecom may not be strictly liable or have any obligation to make any payment to the Claimant.
 - 10.1 In relation to Telecom's <u>liability</u>, if any, to compensate for any demonstrated loss on the part of the Claimant the Arbitrator will:
 - 10.1.1 give effect to any contractual or statutory limitations on Telecom Australia's legal liability, and any limitations on Telecom Australia's liability to the Customer as determined by Austel pursuant to section 121 of the Telecommunications Act 1991 which limitations may apply in respect of some period or periods of time covered by the Claimant's claims and for that reason in making the findings the Arbitrator will:
 - 10.1.1.1 determine for the time covered by the claim, the period or periods for which Telecom Australia is not strictly liable or has no obligation to pay and the period or periods for which Telecom Australia is liable and has an obligation to pay;
 - 10.1.1.2 determine in respect of each such period the amount of loss, if any, incurred by the Claimant;
 - 10.1.1.3 recommend whether, notwithstanding that in respect of a period or periods that Telecom Australia is a

#/fjs4056Dt

periods that Telecom Australia is

not strictly liable or has no strictly obligation to pay, due to a significant pay statutory immunity covering that he represent of period or periods, Telecom recommended or period and having regardates sin all the circumstances relevant the direct the Claimant's claim, pay and liable and or periods and, if so, what amount.

10.1.2 set of against any amounts found by the Arbitrator to be otherwise owing by Telecom Australia to the Claimants any amounts paid to, rebates granted to, or services carried out for the Claimant by Telecom Australia to date.

10.2 In relation to the Claimant's loss, the Arbitrator:

- 10.2.1 will take into account the Claim and
 Defence Documents, any Reply and
 supporting documents, written evidence and
 submissions made by the parties and, if
 applicable, any sworn or affirmed oral
 evidence presented to the Arbitrator by
 the parties to the arbitration together
 with any information obtained by the
 Resource Unit or any advice given to him
 by the Resource Unit.
- will make a finding on reasonable grounds as to the causal link between the alleged service difficulties, problems and faults in the provision to the Claimant of telecommunication services and the losses claimed and, as appropriate, may make reasonable inferences based upon such evidence as is presented by the parties together with any information obtained by

a/fjs405501

the Resource Unit or any advices given to make the him by the Resource Unit. Unless the demonstrate Arbitrator is able to conclude that the second Telecom caused the loss claimed patheres and a will exist no basis for a claim against the second Telecom.

- 11. The Arbitrator's reasons will be set out in full in writing and referred to in the Arbitrator's award.
- 12. If Telecom Australia appeals against the Arbitrator's award pursuant to Section 38 of the Act, Telecom Australia will provide funds from time to time to meet all reasonable legal costs incurred by the Claimant in relation to the appeal and the application for leave to appeal, which costs are to be assessed on a party/party basis (plus 10% of the party/party costs as assessed). Should any dispute arise between the Claimant and Telecom as to the timing of such funding, such dispute shall be determined by the Administrator who shall make his determination after hearing representations from the parties. Neither party shall seek an orders for costs in such appeal proceedings.
- 13. Telecom commits in advance to implementing any recommendation made by the arbitrator pursuant to subclause 10.1.1.3.
- 14. Subject to clause 17 and unless directed otherwise in the Arbitrator's award or the parties otherwise agree or a Court otherwise orders, within three weeks of dispatch to the parties of the Arbitrator's award, payment shall be made by Telecom of any monies directed by the award to be paid. Such payment shall be made directly to the Claimant or in such manner as the Claimant directs, and not through the Administrator. If the Arbitrator determines in respect of a Claimant's claim an amount less than that paid under an earlier settlement, Telecom agrees that the difference will not be recoverable.

4/51540560:

StenBlad

The Arbitrator and Administrator shall conduct and progress the arbitration as quickly as justice to all the parties reasonably permits.

Confidentiality

Confidentizativ

- 16. For the purposes of this arbitration procedure, "Confidential Information" means information relevant to the arbitration, including the Claim and Defence Documents and any other documents provided in, or oral evidence given in, the arbitration by either party other than:
 - 15.1 information which at the time of disclosure to a party to arbitration is in the public domain.
 - 16.2 information which, after disclosure to a party to the arbitration, becomes part of the public domain otherwise than as a result of the wrongful act of the party to whom the information was disclosed.
 - 16.3 Information which was received from a third party, provided that it was not acquired directly or indirectly by that third party from a party to the arbitration.
- 17. This clause is to be read subject to any requirements of law or of any Court application relating to the Procedure. Upon making his award, the Arbitrator shall immediately forward two copies of it to the Administrator and the Administrator shall thereupon send a copy to each party. The Arbitrator's award, the subject matter of the arbitration proceedings; the conduct of the procedure and the Confidential Information shall at all times be kept strictly confidential by the Administrator, the Arbitrator and all of the parties to the arbitration. Telecom Australia has submitted to the arbitration in consideration of the subject matter and the conduct of the arbitration Procedure, the Confidential Information and the Arbitrator's award being kept strictly confidential by the Claimant. If there is any disclosure of any part of the

d/fjs405601

Subject matter or the conduct of the Procedure, the distribution of the Arbitrator's award by either party, then the Arbitrator may take such steps as he thinks appropriate including the dismissal of the claim in distribution of a disclosure by the claimant.

- 18. Notwithstanding clause 17 a party may disclose Confidential Information to any of the other Claimants whose names appear in Schedule D or to the party's legal or other consultants provided that the party ensures that every such individual Claimant and consultant signs a confidentiality undertaking in the form set out in Schedule E and sends that confidentiality undertaking to the Administrator prior to receiving any Confidential Information.
- 19. Clause 17 does not limit the right of any party to seek injunctive relief or make a claim for any damages suffered as a result of any disclosure.

Costs

- 20. The Arbitrator's fees and expenses shall be paid by the Administrator and are part of the administrative costs of the Procedure.
- 21. The administrative costs of the Procedure are subject to a separate agreement between the Administrator and Telecom Australia.
- 22. Subject to clause 21, each party shall bear its own costs of the arbitration.

Notices

23. All documents letters or notices to be sent to Telecom
Australia in relation to this Procedure shall be sent to:

Stine Blank

Mr Paul Rumble
National Manager-Customer Response Unit
Telecom Australia
Level 8
242 Exhibition Street 242 Exhibition Street 242 Exhibition Street 3000 242 Exhibition Street

by being delivered by hand or sent by prepaid mail.

Liability of Administrator and Arbitrator

24. Neither the Administrator, the Arbitrator, the Special Counsel, a partner or employee of the legal firm of which the Special Counsel is a partner, a member of the Resources Unit, Ferrier Hodgson or a partner or employee of Ferrier Hodgson, DMR Group Australia Pty. Ltd. or a Director or employee of DMR Group Australia Pty. Ltd. shall be liable to any party for an act or omission in connection with any arbitration conducted under these Rules or involved in the preparation of these Rules save that the Arbitrator (but not the Administrator) shall be liable for any conscious or deliberate wrongdoing on the Arbitrator's own part.

Return of Documents after Arbitration

25. Within 5 weeks of publication of the Arbitrator's award, all documents received under this Procedure by the parties the Administrator, the Resource Unit and/or the Arbitrator and all copies thereof, shall be returned to the party who lodged such documents.

Conflict of Rules

26. In the event of any inconsistency between these rules and the provisions of the Act, these rules shall prevail to the extent of that inconsistency.

Chartered Accountants
Level 11, 459 Collins Street
Melbourne VIC 3000

Dear Sir

As you are aware, Maureen Anne Gillan signed (through her power of attorney) the Request for Arbitration on 8 April 1994.

Ann Garms (on behalf of herself and other related claimants), Alan Smith and Graham Schorer (on behalf of himself and other related claimants) signed the Request on 21 April 1994.

Mr Steve Black signed each agreement on behalf of Telstra Corporation Ltd.

Pursuant to clause 5 of the "Fast-Track" Arbitration Procedure, the Administrator, Warwick Smith, has formally notified the parties and me in writing that he has received completed and signed Request for Arbitration forms from both parties in each instance. Pursuant to clause 7.2 of the Past-Track Arbitration Procedure, each claimant must, within four weeks of receipt of Mr Smith's notice, send to Telecom and to me its Statement of Claim together with supporting claim documents.

I have been advised by the Administrator that formal notice pursuant to clause 5 was delivered to Garms, Smith and Schorer on 27 April and to Gillan on 3 May 1994.

I am anxious for these matters to proceed as expeditiously as possible. In the circumstances I believe it would be appropriate for the Resource Unit to familiarise itself with documentation which will unquestionably be placed in evidence, namely:

95/0594-01

AUSTRALIAN TELECOMMUNICATIONS AUTHORITY

141

93/507

9 December 1993

Mr Ian Campbell Managing Director - Commercial Business Telecom

Fax 634 3876

Dear Mr Campbell

BELL CANADA INTERNATIONAL REPORT

This letter is to convey to you advice to the effect that while AUSTEL was -

- consulted on the terms of reference for the Bell Canada International (BCI) audit of Telecom's testing and fault finding capability, and study of its network, to determine if there is a fundamental network fault
- of the view that the proposed testing would provide a useful snapshot of current network functionality and that the terms of reference allowed for sufficient flexibility to produce results relevant to a consideration of Issues raised by COT Cases (without drawing conclusions on an individual customer's complaint).

on a preliminary analysis the report fails to live up to the expectations raised by the terms of reference.

Findings must be qualified

The BCI study concluded that "...customers served from the test originating and test terminating exchanges receive a grade of service that meets global network performance standards..." (sixth paragraph of the Executive Summary). Any findings to that effect must be qualified by the fact that the BCI audit focused on only one part of what is commonly called "the network", namely Telecom's exchange-to-exchange operations. BCI's audit did not extend to an equally significant part of "the network", namely the customer agreess network.

To put it another way, the tests conducted by BCI neither were nor purported to be "end-to-end" testing, but involved testing of part of the network only - the inter-exchange network. The tests were not applied in a manner designed to check complete end-to-end network performance from a customer's perspective. They were made from exchange equipment to exchange equipment and, except in one case, did not traverse customer lines or use customer premises equipment. The conclusions which may be drawn from the

5 QUEENS ROAD. I POSTAL: P.O. BOX 7443, ST KILL TELEPHONE: (03) 828 7300 URNE, VICTORIA MELBOURNE, VICTORIA, 3004 ACSIMILE: (03) 820 3021 471-A

study cannot go beyond the inter-exchange network. The findings cannot be presented in the way they were in the Executive Summary to suggest that they embrace the network as a whole, including the customer access network.

142

Test call patterns not typical of COT Cases

The test calling patterns adopted apparently reflected the main network traffic streams relevant to the exchanges currently providing services to the COT Cases and related customers, but did not necessarily reflect typical traffic patterns experienced by those customers. While the results can be considered indicative of the general switched public network performance of the exchanges involved, they cannot be guaranteed to be representative of calling performance from typical client locations to the exchanges serving the COT Cases and related customers.

Also for whetever the reasons, such as time constraints, the testing undertaken by BCI appears very narrowly focused. For example, in Melbourne BCI undertook test calling from only seven exchange localities out of the 100 or more in the Melbourne metropolitan area, with only selective test calling from the Western suburbs. This is particularly disappointing in that both of the Melbourne businesses included in the testing claim to have experienced difficulties with respect to calls from Western suburbs based clientele.

Testing of PBX ("rotary") search facility

Particular concern has been expressed by COT Cases dependent on older (cross bar) exchange technology, in relation to periodic faults of the rotary search facilities which are designed to allow calls dialled to a single number to be offered to a group of access lines appearing in the customer's premises.

With the benefit of hindsight, exchange-to-exchange network integrity tests for COT Cases traffic cannot be considered comprehensive without the inclusion of testing of this facility in the terminating exchanges serving the relevant COT Cases.

I understand that BCI is currently undertaking further testing to recress this shortcoming in its report.

008 services

Also with the benefit of hindsight, given the concerns expressed by certain of the COT Cases the realistic testing of network performance should have included test calling via any relevant 008 number.

* Retrospectivity

The report itself highlights the fact that the tests provide only a snapshot which does not necessarily reflect the problems that COT Cases have experienced in the past - see paragraph 5.00 of the report which "... recognises that the tests performed by BCI ... look at the network at a specific point in time. The results therefore, may be completely different from those obtained at some other point in time. Furthermore, as troubles are cleared when found, it is unlikely that the same trouble conditions will show up in subsequent tests".

471-A

in summary

143

Having regard to the above, I am of the opinion that the BCI report should not be made available to the assessor(s) nominated for the COT Cases without a copy of this letter being attached to it.

Yours aincerely

Cliff Mathieson

Specialist Advisor - Networks

Mr Alan Humrich General Manager Central Area 6th floor, 151 Roma Street Brisbane

14 December 1993

Subject: Austel Letter of 9 December 1993.

The purpose of this letter, is to respond to comments made in <u>Austel's letter to Mr Ian</u>
Campbell dated 9 December 1993 and entitled Bell Canada International Report.

Austel's comment in the letter states that "on a preliminary analysis the report fails to live up to the expectations raised by the terms of reference".

In response to this comment, Bell Canada International Inc (BCI) was commissioned by Telecom Australia (Telecom) to test the network and to determine if there was a fundamental network fault or series of faults which would create the type and magnitude of troubles identified by the difficult fault customers. The BCI approach (given the study time requirements) was to complete an overall review of network translations and routing patterns and to assess any common network elements that could be applicable to the COT Customer's problems. The potential problem was deemed to be in the public switched telephone network.

The Austel letter states that "The test calling patterns adopted apparently reflected the main network traffic streams relevant to the exchanges currently providing services the COT cases and related customers, but did not necessarily reflect typical traffic patterns experienced by those customers:

The original tests covered over 17 exchanges and used 11 transit nodes.

The majority of all calls originating and terminating in Melbourne utilise final choice trunks via EXHA (Exhibition) and WINC (Windsor) exchanges.

All western nodes with the exception of Brunswick system 12, were tested.

K47459 471-8 Tests were run over periods of time, to ensure that the exchange office busy hours were selected as well as business and residential peak calling periods, including discount weekend calling patterns.

In our opinion and supported by additional tests carried out during the rotary hunting group study; expanding the tests to additional exchanges would not likely produce different results because the majority of switching and transmission paths are merely being re-tested.

Austel further identified that the network study should have included "Test calling via any relevant 008 number" BCI was not directed by Telecom to test the 008 service for specific customers however, 008 is essentially a service that utilises the inter-exchange network and is a set of translations which directs calls to the appropriate telephone number through the inter-exchange network.

Many services could have been tested however, not every COT customer has a common set of services that would create the problems being reported.

Finally, Austel's statement in the letter that opinion that the BCI in its report should not be made available to the assessor(s) nominated for the COT Cases without a copy of this letter being attached to it"

The (Inter-Exchange) Network Study is a snap-shot of the network performance in exchanges selected for the study and that if a major network fault or series of faults were inherent in the network, they would have been identified during the study period.

The Austel letter raises specific COT customer issues which were ancilliary to the BCI study.

The study is the property of Telecom for its intended use and BCI is prepared to stand behind the results and content of the study.

Yours Truly.

Dear Mr Rumble

COT MATTERS

On 13 July 1994, the Resource Unit requested copies of the Bell Canada Report, the Coopers & Lybrand Report and the Telecom response to these Reports. The purpose of the request was to enable the Resource Unit to commence perusing relevant background documentation.

This documentation was provided to me by Mr Rod Pollock by hand on 15 July 1994 and has now been passed on to the Resource Unit. In addition, certain other material was provided to me. The documents concerned are numbered 1, 4, 5, 6 and 7 in the attached Table of Contents.

I do not know whether this additional material has previously been made available to the Claimants. I also do not know, whether the additional material is considered by Telecom to be related to the documentation requested by the Resource Unit or whether perhaps, Telecom considers that the documentation requested by the Resource Unit cannot be read in context without the benefit of this additional material.

You will appreciate that I cannot forward material to the Resource Unitwhich is not made available simultaneously to the Claimants. You will also appreciate that Telecom will have an opportunity to submit its own evidence in respect of each of the current claims once the respective Claimants have finalised their submissions. tydney wes

The Australian Member of Interlaw, an International association of law firms + Asia Pacific + The American + Europe + The Middle East

Senator SCHACHT—I will put that question on notice. As to the complaints to Telstra from the CoT cases—Mr Benjamin, you may think that you have drawn the short straw in Telstra, because you have been designated to handle the CoT cases and so on. Are you also a member of the TIO board?

Mr Benjamin-I am a member of the TIO council.

Senator SCHACHT—Were any CoT complaints or issues discussed at the council while you were present?

Mr Benjamin—There are regular reports from the TIO on the progress of the CoT claims.

Senator SCHACHT—Did the council make any decisions about CoT cases or express any opinion?

Mr Benjamin—I might be assisted by Mr Pinnock.

Mr Pinnock-Yes.

Senator SCHACHT—Did it? Mr Benjamin, did you declare your potential conflict of interest at the council meeting, given that as a Telstra employee you were dealing with CoT cases?

Mr Benjamin—My involvement in CoT cases, I believe, was known to the TIO council.

Senator SCHACHT-No, did you declare your interest?

Mr Benjamin—There was no formal declaration, but my involvement was known to the other members of the council.

Senator SCHACHT—You did not put it on the record at the council meeting that you were dealing specifically with CoT cases and trying to beat them down in their complaints, or reduce their position; is that correct?

Mr Benjamin-I did not make a formal declaration to the TIO.

Seal Cove Guest House 1703 Bridgewater Road Portland 3305 Phone 03 55 267 170

29th December 2008

Mr Peter Bartlett
Minter Ellison
Rialto Tower, Collins St
Melbourne 3000

Dr Gordon Hughes Blake Waldron Dawson Level 39, 101 Collins Street Melbourne 3000

Re Graham Schorer and Alan Smith, COT

Dear Mr Bartlett and Dr Hughes,

On 17th September 2008, Mr Chris Chapman, Chairman of ACMA, was provided with proof that our FTAP Arbitration agreement was altered after it had been distributed as the <u>final</u> version, to the three remaining foundation COT claimants, between 13th and 19th April 1994. We were not advised of the intended or the actual changes before we signed the agreement on 21st April 1994. The changes made included the removal of clauses 25 and 26 and alterations to clause 24, which exonerated Minter Ellison (Special Counsel), Ferrier Hodgson Corporate Advisory and DMR Inc., from legal suit.

On the day that we actually signed our agreement we were told that Steve Black would not be signing on behalf Telstra at the same time because he was unable to be at Minter Ellison for 'business reasons' and that you, Mr Bartlett, would courier the document to Telstra for later signature. It has since been shown that it took a further six days for the document to be delivered to us with Mr Black's signature added and we are both prepared to sign a sworn statement to this effect. Evidence only received earlier this year suggests that the signature on (page 12) of the agreement could well have been altered during the six days after we had signed it.

We would now like clarification of exactly when the agreement was altered and whether that was before or after we signed the agreement.

A copy of the letter dated 17th September 2008, to Mr Chapman (see paragraph 1, above), and 29th December 2008, to Mr Chris Chapman, ACMA Chairman and Ms Deirdre O'Donnell, Telecommunication Industry Ombudsman, is attached. It is considered these letters will assist you both in understanding the legal ramifications to what has transpired.

Alan Smith

Thank you

Graham Schorer

Copies to

Ms Deirdre O'Donnell, TIO, P.O Box 276 Collins Street West, Melbourne 8007 Mr Chris Chapman, Chairman of ACMA, P.O. Box Q-500 Queen Victoria Building NSW 1230

Seal Cove Guest House 1703 Bridgewater Road Portland 3305

Phone/Fax: 03 55 267 170

29th December 2008

Ms Deirdre O'Donnell Telecommunications Industry Ombudsman P O Box 276 Collins Street West Melbourne 3000

Re Graham Schorer & Alan Smith, COT

Dear Ms O'Donnell,

Previously we both had a claim administered by the TIO in relation to the Fast Track Arbitration Procedure involving Telstra. We are again raising that matter with the TIO to ensure that you are aware of the information detailed in the following letters:

- 1. Letter dated 17th September 2008, to Mr Chris Chapman, Chairman of ACMA;
- 2. Letter dated 29th December 2008, to Mr Chris Chapman, Chairman of ACMA;
- 3. Letter dated 29th December 2008, to Dr Gordon Hughes and Peter Bartlett.

The documents attached to the letter dated 17th to Mr Chapman demonstrates how both Telstra's Steve Black and the then-TIO, Warwick Smith, were both totally opposed to the removal from the arbitration agreement, of the legal liability clauses 24, 25 and 26, that were later altered and/or removed without our prior knowledge consultation and/or agreement. In relation to these legal liability clauses, we are therefore now asking you to confirm:

a) Was the TIO ever informed prior to 21st April 1994, that clause 24 would be altered and the original clauses 25 and 26 were to be removed, so that the TIO's Special Counsel and the arbitrator's Resource Unit would be exonerated from legal suit?

Alan Smith

Was the TIO ever warned that the FTAP agreement (page 12) could have been altered, b) without our knowledge or consent, during the six-day period after we had signed the agreement, but before we received it back with a Telstra representative's signature?

As the claimants in this process, we are entitled to establish the truth regarding these matters.

Thank you

Graham Schorer

Dear Mr Smith

INTERCEPTION OF FACSIMILES

Thank you for your correspondence of 2 June 2012 to the Attorney-General, The Hon Robert Clark MP. I also note your letters of 2 June 2012 and 12 June 2012 to the Department of Justice.

As you have been previously advised, telecommunications issues fall outside the portfolio responsibilities of the Victorian Attorney-General and are the jurisdiction of the Commonwealth Government. As you are aware, the government agency responsible for such matters is the Australian Communications and Media Authority, who can be contacted via the information below:

Australian Communications and Media Authority PO Box 13112 Law Courts MELBOURNE VIC 8010 Telephone: (03) 9963 6800

You may also wish to raise your concerns with the Commonwealth Minister for Broadband, Communications and the Digital Economy, Senator the Hon Stephen Conroy, via the following details:

Senator the Hon Stephen Conroy
Commonwealth Minister for Broadband, Communications and the Digital Economy
Level 4, 4 Treasury Place
MELBOURNE VIC 3002
Telephone: (03) 9650 1188

If you require advice in respect to your claims about the arbitration process you can call Victoria Legal Aid for general legal information on 1800 677 402. The Law Institute of Victoria also runs a referral service that can assist you in finding a lawyer, the details of which are below:

The Law Institute of Victoria Referral Service

Telephone: 9607-9550 (Monday-Friday 9:00am-5:00pm)

Email: referrals@liv.asn.au Website: www.liv.asn.au

You should refer any claim of criminal conduct to Victoria Police, the details of your local police station are as follows:

Victoria Police – Portland Glenelg Street PORTLAND VIC 3305 Telephone: (03) 5523 1999

Any allegations of telecommunication offences should be directed to the Australian Federal Police on (02) 6131 3000.

The Attorney-General's Office is unable to intervene in this matter.

Yours sincerely

Dear Mr Smith

Interception of facsimiles

Thank you for your letter to Susan Coleman of 8 December 2011. I apologise that the legal centre you were referred to, South West Community Legal Centre (also known as Community Connections), was not able to assist you with your matter.

I refer to previous correspondence and the Department's advice that you seem to have exhausted all available avenues where your claims may be investigated. Unfortunately, the Attorney-General and the Department of Justice cannot assist you any further with this matter.

Yours sincerely

Chris Humphreys ... 23/3/12

Director

My Telstra account for my fax line, below, also covers the time span during which I sent these faxes.

FAX FROM: ALAN SMITH

Cape Bridgewater Holiday Camp

Portland 3305

FAX NO:

03 55 267 265

PHONE NO:

03 55 267 267

FAX TO: SENATOR IAN CAMPBELL

C/O MINISTER FOR COMMUNICATIONS &

INFORMATION TECHNOLOGY

PARLIAMENT HOUSE

CANBERRA

DATE:

17/3 99

NUMBER OF PAGES (including this page)

If you have received this document in error, please phone us on 03 55 267 267.

Dear Senator Campbell,

In the course of preparing my last fax to you, as I watched the last draft arriving via my fax from my secretarial agency, the fax began to ring, even though a fax was rolling through. The fax from the secretarial agency stopped and a totally different fax, from my barrister in Melbourne, began to appear. The phone rang again and the barrister's fax stopped. The last pages of the fax from my secretarial agency then arrived. In other words, on a continuous strip of fax paper I have two pages from my secretarial agency then two pages from my barrister and another three (the covering faxes to the three cc's listed on your fax) from the agency.

I find this quite confusing. How can my fax machine have accepted two separate calls from two different addresses but at the same time? How could it be that the fax/phone actually rang as if a call was coming in when the second caller should have received an engaged signal?

All this is even more ironic when we remember that I was in the process of preparing my fax to you and that this fax was specifically related to past fax problems I had experienced!

So, I now have a continuous piece of fax paper showing the mix-up of these two different faxes and a print-out of my fax journal records which shows these faxes arriving consecutively. The fax journal also indicates a '490' fault had occurred with one of the faxes from the agency and one from the barrister. According to my fax manual, a '490' fault indicates 'received data has too many errors'. The manual suggests that this should be checked with the 'other party'. When these faxes were later re-sent to me there were no problems.

I have to now ask: How many faults are Telstra customers expected to accept?

10 PAGES FAXED

Dear Sir.

I am writing to ask when the Institute of Arbitrators is going to investigate Justice Shelton's involvement in the COT Arbitrations.

There are a number of points at issue here:

- It is well documented in the Senate Hansard of 1994/95 that the four COT Arbitration processes were intended to be non-legal commercial assessments, not legal arbitrations;
- 2 It is clear that Telstra's preferred rules of arbitration and the rules that the COT four actually signed on 21 April 1994 were one and the same, except for a few minor cosmetic changes;
- The COT four, and the Senate, were assured that we would receive natural justice through this specially designed commercial assessment process.

POINT 1

Peter Bartlett of Minter Ellison, together with the than TIO, Warrick Smith, informed me on two separate occasions that, when I signed for arbitration. I would not need legal representation. Telstra, on the other hand, were clearly represented by Freehill Hollingdale and Page. Obviously, as a solitary, non-legal person I was a dead duck from day one of the arbitration.

POINTS 2 & 3

I have now been advised by legal experts who have assessed the lTAP rules that, under these rules, my arbitration could never have delivered natural justice to non-legal people such as the COT four. Fax from : 8355267238

15/89/98 15.51 Pg. 4

I can only assume that when Justice Shelton, who was then the President of your institute, was involved in drawing up the rules of the FTAP, he was not aware that:

- the four members of COT had previously signed a commercial assessment agreement which was still in place and
- the commercial agreement was for a non-legalistic assessment.

Surely, if he had been aware of this pre-existing agreement, someone with Judge Shelton's qualifications would never have allowed the FTAP to take preference over the already established FTSP.

I ask again: does the Institute intend to investigate this matter?

I await your response.

Yours sincerely.

Mr Wally Rethwell Deputy Ombudsman TIO's Office Melhourne

Dear Wally.

It is already clear from the information I have previously provided to your office that not all my claim documents reached Telstra's defence unit. If Democracy is sill alive in Australia under the present Liberal Coalition Government, and in the interests of Natural Justice, then a full enquiry must be launched into how my faxed claim documents were received at Dr Hughes's office and if they all arrived as intended.

Your office has already been provided with supporting documents from the Occasional Office, Christy Hawker's Secretarial Service and Robert Paimer, Author. All three of these people have received blank pages, documents with extended pages or badly disfigured pages from my fax over the period they have worked for me. The statement from the Occasional Office has been provided in the form of a Statutory Declaration.

A copy is now attached of a four page letter dated 25/5/95 to Sue Hodgkinson of Ferrier Hodgson Corporate advisory (FHCA). Please note that the pages are clearly numbered 1 to 4. The second attachment is a copy of three pages marked "extended page 1.1, extended page 1.2 and extended page 3.1". These first two of these pages are copies of part of the original letter which I sent to Sue Hodgldnson via Dr Hughes office by fax on 25/5/95 at 02.10 pm. The planning thing about this letter is that it seems that only 1½ of the original pages reached the Arbitrator's office. Further, and even more alaryming, the page couried "extended page 3.1" was not part of my claim at all. This raises the question of who this document belongs to or who it came from and this leads to the inevitable conclusion that someone else's claim is probably incomplete.

I have left these three pages stapled in the original condition - as they were returned to me from Dr Hughes's office after the completion of my Arbitration, as part of my own documents.

page 1 . 484

Fax from : 0355267230 36/07/98 MASE T

Not only is the identification information from my fax missing from these documents, including the date and time sent, but there is no identification for the third page either.

I have continually alerted your office to my belief that not all my claim documents were being seen by the parties they were intended to be seen by, including DMR and Lanes, and Telstra's defence unit. Although this letter to Sue Hodgkinson was sent after my Arbitration was completed (11/5/95) and therefore could not have been used as evidence to support my claim, the way in which they were received (or only partly received) at the Arbitrator's office supports my allegations that not all the claim documents that I faxed to the Arbitrator during my Arbitration actually reached his office.

As a matter of muliqual justice, the TIO's office should demand an answer from both Teletra and the Arbitrator: they should be required to explain where the remaining 2%. pages of the fax to Sue Hodgidmon went and, even more importantly, who the page marked "extended page 3.1" actually belongs to.

I now demand an explanation from your office as to why not all my claim documents arrived at the Arbitrator's office, thereby leaving Telstra in the lucky position of not having to address the missing documents.

Under the circumstances I also demand that I be supplied with a full and comprehensive list of all the claim documents that the TIO's Legal Counsel, Peter Bartlett of Minter Ellison, received from me during my Arbitration so that I can compare this with my own list of what I)r Hughes received and uncover how many ended up the same way as the Suc Hodgkinson fax noted above.

Mr Pinnock continues to state that I can only have these matters addressed in the Supreme Court of Victoria but what he has forgotten is that, before the COT four signed for this Arbitration, Senator Richard Alston, Senator Ron Boswell and the four of us were assured by the then TIO, Warrick Smith, that these four COT Arbitrations would be nonlegalistic and fast-trucked. This can be confirmed by referring to Hansard reports during 1994 and 1995. Because of this I stand firm in my belief that these matters fall under the jurisdiction of the Administrator of my Arbitration - Mr Plamock. The TIO's office has a duty of care to ensure that the "extended page 3.1" is returned to its rightful owner so that person can re-submit the claim document as a 'complete document' for both DMR / Lanes and Telstra to address.

The example of this fax to Sue Hodgkinson is further evidence showing that the Telstra Network was faulty, the very reason we COT members were in Arbitration in the first place. The whole situation was made worse by the fact that we were forced to use this faulty network to lodge our cisims.

Pg: 3

38/97/98 13:50 fg: 4

Fax from : 8355267238

Because of this evidence the TiO's office must intervene and instigate an enquiry into how many of my claim documents were lost when they were sent by fax and how many documents were lost by other member's of COT when they lodged them by fax. This enquiry must now proceed as a matter of angency.

I await your immediate response.

Sincerely.

Alan Smith

Mr Wally Redewell Telecommunications Industry Conbudemen's Office Exhibition St Melbourne 3000

Dear Wally,

The attached deciminate should collectes you reporting my reasons for continually stating that not all the chain decomments I submitted to Arbitration were addressed according to the Arbitration agreement signed by the COT four.

THE "BRIEFCASE SAGA"

Dove Stockship and High Machineck of Teletra's National network Investigation division visited say bushess at Cape Bridgewater on 3 Jame 1993, to discuss my phone problems. Sometime later I discovered an unidentified betalened in my office. When I found that the briefense was not betaled, I opened it to succertain the symir and found that it belonged to Mr Machineck. After sufficing for so many years with a phone service 'not fit for purpose', I am sure you will understand how I felt when faced with a file titled "SMITH, CAPE BRIDGEWATER". The information in this He indicated that Telesona know of the full extent of the phone problems and fanile sufficied by my binderes and by my customers when they tried to contact me by phone. This file also indicated that Telesona had sycards desing back to the first estaphilitie I had leidered.

APPENDIX 1:

"FOI documents CO1006, 7 and 8

I helieve that the hand-notites comments made by Telecom's Reasons Pitterd on document Cocces were made at the time of settlement. This settlement was reached on 11 Decimber 1992 and, since these comments refer to Telecom being sware of the poor grade of network performance sufficiel by my hustman over the provious 3 - 4 years, this proves clearly that Telecom had been sware of my complaints from when I first began to being those in April 1916.

APPENDIX 2:

PART 1

Lietter dated 12/6/96, to Mr John Wyneck. Commonwealth Ombudarien's Office This letter is self-explanatory.

PART 1A

Witness Statement dated 12/12/84, Rosenne Pittard, Teletra (attached to Mr Wynack's letter)

This document includes the following statement:

Derlag our settlement discussions Mr Swith had unifinited use of the selephone so that he could speak so his advisors if he required. I am ewere that hi my chaence Mr Smith made several telephone conversations during the negotiation period."

I would be interested to know how Ms Pittard know about these phone conversations since Ma Pitturil and I were the only people at this meeting, in a closed room. Me Pittard told me the phone had a direct line out and I therefore had only to dial the number I required. She also told me that she would close the door when she left me to read the documents she had provided and if I needed ton or delice while she was out of the room I should open the door and call for assistance. In other words, she could not have overheard me on the phone as the door was shut.

PART 2

Telecom confidential memo dated 17/8/1993,

from Rosenne Pitterd to the Manager, Network Investigations.

Please note that, in this maint, Recomme Pitterd states:

"I refer to our tileplique conversation regarding the muterial contained in Mr Machtisch's briefense."

Mis Pittard farther states, in this state men

"Whilst I can respond to the details regarding the information provided to him at the time of settlement, I connect comment on the variation between what Mr Smith was told and the contents of The Network Investigation. Mai -

PART 3

Letter from Austel. .

In this letter, Anstel requests information reporting the 'brieficuse incident'. . .

When FOI desensets C04006, 7 and 8 (Appendix 1) are read in conjunction with the letter to Mr Wynnek (Appendix 2, part 1), and the contents of the Network Investigation files which were in Mr Macintoch's brickiass, it is guite clear that Telecom were not admitting to the full truth regarding the phone foults at Cape Bridgerester Haliday Comp.

Mr Wynneit's letter shows that Me Pitterd had not tald the truth regarding the faults which, at that time, Telecom know had been contlending unabeted, for 3 - 4 years.

Fax from : 855 267238

81/12/98 12:27 Pg: :

I now await your response as to what the TIO's office intends to do with regard to these two larges;

Thank you for your concern.

Sincerely,

Also Smith

P8

I am now in receipt of a letter dated 17/4/1998 from hir George Sutton of Teletra's Legal Directorate - FOI Unit; tegether with copies of page 1 from Teletra's KLS files which refers to legbooks dated 1/10/1990 and copies of CCAS test leg books from 1/10/90 to 29/3/93.

I requested this information during my Arbitration, through the agreed discovery process, through FOI and via the Arbitrator. This information was never supplied to me.

In my letter to Mr Wynack (Appendix 2, part 1), as part of the settlement process of 11/12/1992. I also asked for copies of these early legbooks from 1990 to 1992. I had been advised by a number of different Telecom departments that no historic documents were kept by Telecom from believe 27 June 1991.

Clearly these log books do exist. I believe some of the loose pages I may in Mr Macintosh's briefense came from these CCAS log books.

I spoke with Mr Suites on 23/4/1996 and it appears that I may now finally receive this information, after five years waiting and three and a half years after my award was banded down by the Arbite atter.

COT MATTERS

On 11 April 1 met with John Seisk and John Rundall of Pertier Hodgson to discuss the impact of the latest draft by the "Past-Track" Arbitration Presedure on the Resource Unit.

They made the following points:

- in relation to clause 8.1, services will in fact be provided by Ferrier Hodgson Corporate Advisory (Vic.) Pty Ltd, not Ferrier Hodgson Chartered Accountants. Butter the name should be substanted or the words "(incorporating Feigler Hodgson Corporate Advisory (Vic.) Pty Ltd.)" should be inserted in the third line after the words "Chartered Accountants";
- also in relation to clause \$.1, wchalcul imput will be provided by DMR Inc., not DMR Group Australia Pty Ltd. DMR wishes this substitution to be much;
 - (c) the above changes should be remested in clauses 25 and 26 as presently desired;
 - (d) forther in relation to clauses 35 and 26, both Fester Hodgeon Corporate Advisory and DMR inc are concerned about their potential liability. As the desires presently read, they restrict he juble to a maximum of \$250,000.00 per claim. This is likely to eignificantly exceed their projectional focu in relation to each claim Fester Hodgeon's preference (and also the preference of DSCR)

would be for a total exclusion of liability but, fulling time, they would accept a lower cap more continuousses with their anticipered fees;

(a) in relation to the Confidentiality Agreement appended as Schedule B, Mr Sciak and Mr Bundell believe reference abouid be made to the Administrator in Human 2. They would also prefer a single undertaining to be executed by Ferrier Hodgson Corporate Advisory (and execute by DMR Inc.) rather than by the various individuals within the organisation. They would remain vicariously liable for breaches by their simployees.

I appreciate that one claiment has already executed the agreement in its current form. The others will no doubt be present to do likewise over the near few rhys. I further appreciate you will be relocated to introduce additional changes to the draft proofchive at this delicate stage of negotiations but it is of course also fundamental that account be taken of the concerns raised by members of the Resource Unit. Perhaps the agreement should be ensembled in the current form and then agreement sought from the parties to very the terms to take toto account any proposals by Pertier Hodgson or little which you agree are reasonable.

Could I suggest that you liste direct with Mr Selak or Mr Jundell shour these concerns? Perhaps they could also speak direct to Warwick Smith.

Yours stocersty

CC

W Smith J Solak, J Rundoll

FERRIER HODGSON CORPORATE ADVISORY

BY COURIER

Our Ref: A1.4

15 November 1995

Mr John Pinnock
Telecommunications Industry Ombudsman
TIO Limited
321 Exhibition St
MELBOURNE VIC 3000

Dear Sir,

RE: Telecommunications Industry Ombudsman - Resource Unit Fast Track Arbitration - Alan Smith

We refer to your letter dated 9 November 1995 with the attached facsimile from Mr Alan Smith dated 8 November 1995, and your recent conversations with Ms Susan Hodgkinson of this office concerning the above completed arbitration.

You have asked us to provide clarification of the issue raised by Mr Smith relating to the deletion of references to a potential addendum on possible discrepancies in Smith's Telecom bills in the final Technical Evaluation Report. We have spoken to Lane Telecommunications Pty Ltd ("Lanes"), who acted as Technical Consultants to the Resource Unit in the above Arbitration, and they have provided the following comments in relation to the issue raised by Mr Smith:

"At a late stage of the Arbitration process, at the time of preparation of the Technical Evaluation Report, there was discussion about billing issues which had been raised by Mr Smith. A draft of the Technical Evaluation Report therefore included reference to the billing matters, which it was thought might require further work beyond the time of issue of the Report.

The primary matter concerned Mr Smith's bills for outgoing calls from Cape Bridgewater. Mr Smith had observed that there was a discrepancy between the call durations of STD calls on his bills and the durations shown by Telecom's call recording equipment connected to Mr Smith's line (in the Customer Access Network).

Discussions were held with Telecom (Mr Peter Gamble) in Mr Smith's presence during the visit to Cape Bridgewater in April 1995, which provided the following information:

FERRIER HODGSON CORPORATE ADVISORY (VIC) PTY LTD

- For outgoing calls on a normal customer exchange line, the caller notes the answer of the called party by cessation of the ring tone and the answering voice. However, there is no corresponding physical (electrical) signal on the caller's line (CAN side of the exchange) for the call recording equipment to register that an answer has occurred. Consequently, timing of the call recording equipment is configured to allow a fixed time to answer (say 30 seconds) from the time the caller lifts the handset, or from the completion of dialling, until it assumes that answer has taken place. Thus the overall measured duration of the call from lifting to replacement of the handset is reduced by this fixed amount to give the (assumed) nominal conversation time.
- Billing on the other hand is based on signals recorded at the caller's exchange, including a
 physical signal to indicate called party answer. Thus the billing duration is precise.
- At an individual call level, there will therefore be discrepancies between the two sets of call duration records except where the actual and assumed times to answer are the same.
- Lanes considered and accepted this technical explanation from Telecom as plausible, and believe Mr Smith also understood and accepted it. Consequently, as the discussion appeared to have resolved this matter, it was not included in the formal Technical Evaluation Report.

A second matter involved 008 calls. Again, this matter was current at a late stage (April 1995) of the Arbitration process. This matter concerned possible overlap in the records of 008 calls made to Mr Smith, and for which he was billed. However, Lanes and DMR Group Inc concluded that the level of disruption to Mr Smith's overall service was not clear, and that it was unlikely that further work would clarify the matter to the extent that it would have a measurable effect on the Arbitrator's determination. The matter was discussed in Section 2.23 of the Technical Evaluation Report, and an assessment of "Indeterminate" was reached.

As no further progress was likely to be made on these matters, the formal version of the Technical Evaluation Report did not leave the billing issue open."

I trust that the above advice from Lane Telecommunications clarifies the issue raised by Mr Smith regarding the Resource Unit's Technical Evaluation Report.

If you have any further queries please do not hesitate to contact the writer or Ms Susan Hodgkinson on (03) 629 8855.

Yours faithfully,

FERRIER HODGSON CORPORATE ADVISORY

SUBJECT

A Smith Letter dated 25 June 1996

I refer to your letter dated 31 July 1996 (received 1 August 1996) concerning Mr Smith's letter dated 25 June 1996. I have not received a copy of Mr Smiths letter however I have reviewed Matt Deeble's summary and provide the following information concerning Mr Smith's allegations:

Teletra letter referred to by A Smith	Letter from G Hughes with Telsta letter at attachment	Letter from G Hughes (with Telstra letter as attachment) sent to Mr Alan Smith and copied to:					
		Resource Unit	Telstra	110	Special Counsel		
16 December and 8 December 1994	Letter addressed to J Rundell only			•			
27 April 1995	Letter addressed to J Rundell only						
12 April 1995	√ *=				 		
Two letters dated 9 May 1995							
16 September 1994	Unable to locate a letter						
23 September 1994	Letter only, no Teletra attachment	Letter only	Letter only	Letter only	Letter only		
3 October 1994	Letter only, no Telstra attachment	Letter only	Letter only	Letter only	Letter only		
6 December 1994	7	+					
16 December 1994	Refer to comments above						
22 December 1994	1	7	*	<u> </u>	 		
6 January 1995	7	7					
12 April 1995	Refer to comments above						
23 December 1995	As the Abritration was completed I did not research this further.						

NB1 At the time of the letter from Austel, Mr Smith's telephone problems were being addressed in the Arbitration. Due to a number of factors including confidentially, it was felt not appropriate to answer Austel's comments in detail, in particular the issue was under consideration in the Arbitration. As agreed the Resource Unit did not respond to the Austel letter.

NB2 The covering letter refers to a number of letters from Telstra dated, 12 April 1995, I have assumed the relevant one concerning the TF200 was also enclosed.

I have attached copies and extracts of the relevant documents.

If you have any further queries please do not hesitate to contact me.

Regards

Sussan Hodgkinson
