CONFIDENTIAL

Gentlemen:

Warwick Smith contacted me in confidence to brief me on discussions he has had in the last two days with a senior member of the parliamentary National Party in relation to Senator Boswell's call for a Senate Inquiry into COT Cases.

Advice from Warwick is:

- > Boswell has not yet taken the trouble to raise the COT Cases issue in the Party Room.
- > Any proposal to call for a Senate Inquiry would require, firstly, endorsement in the Party Room and, secondly, approval by the Shadow Cabinet.
- > This would appear highly unlikely at this stage, given Boswell's apparent lack of interest of raising it within the Party Room.
- > The intermediary will raise the matter with Boswell, and suggest that Boswell discuss the issue with Warwick Smith. Warwick sees no merit in a Senate Inquiry.

He has undertaken to keep me informed, and confirmed his view that Senator Alston will not be pressing a Senate Inquiry, at least until after the AUSTEL report is tabled.

Could you please protect this information as confidential.

Mr Warwick Smith Telecommunications Industry Ombudsman

Facsimile No. 277 8797

Dear Mr Smith

The purpose of this letter is to confirm our discussion of 7 July 1994 at which Telecom outlined a proposal to provide confidential information to the arbitrator subject to the confidentiality provisions of the Rules of Arbitration governing the claims of the four COT claimants.

As discussed, it is proposed that Telecom will provide to the arbitrator a series of confidential reports which the arbitrator may then make available to the four COT claimants subject to the confidentiality provisions of the Rules of Arbitration. It is understood that, if the arbitrator makes this information available to the COT claimants, they will be required to keep the information confidential and return all copies of such documents and material to Telecom at the end of the arbitration.

Telecom will also make available to the arbitrator a summarised list of information which is available, some of which may be relevant to the arbitration. This information will be available for the resource unit to peruse. If the resource unit forms the view that this information should be provided to the arbitrator, then Telecom would accede to this request. It is recognised that this information may then be made available to the four COT claimants, subject to the confidentiality provisions of the Rules of Arbitration.

Yours faithfully

Steve Black

3. Unfortunately the Legal advise and expertise that Telecom has sought from its internal legal group has also been sadly lacking in ethical direction. In the management of major customer disputes the legal area has sought to hide and skirt around the truth. Telegan stepar source subject establishment and the international statutor, authorities with only take of the international quired fully aware of not providing all internations. Their general position has been to sit behind the legal word and its many interpretations in so doing avoiding full disclosure of information. - 4. There are three main areas which Steve Black and his senior executives have sought to influence and manipulate:
- 1. Remove or change clear information on the position of liability. ?
- 2. Diminish the level of compensation payable to COT customers.
- 3. Dismissive of breaches in relation to matters regarding customer Privacy.

In relation to the Robert Bray case Steve Black has sought to cover up the true facts of disclosure of customer information. Particularly he has sought to cover up "broadcasting" of the customers private information.

As you can see from what I have mentioned to you something needs to done. As you can appreciate we are not in a position to go any deeper that what has already been outlined . As to where next that lies in your hands. We have done what is unfortunately our only form of address to the situation.
